<i>Important Notes</i>		
Any complexities or forms not specifically mentioned above will be performed at a rate of \$250/hr. We will proactively communicate ahead of time with you if we estimate the time required to exceed one hour.		
* This fee does not include gathering, performing accounting services, or categorizing income, expense or other financial information necessary for the preparation of the tax return schedule. Income, expense and any other required financial information must be provided in the appropriate summary form from your accounting/bookkeeping system. If accounting is required, a rate of \$225/hr will be charged.		
** The base fee increases based on income thresholds, as prep time associated with the return and IRS tax preparer liability increases.
